5. PERFORMANCE OF FORMULA, EXPLANATION OF EFFECT ON VALUE OF INVESTMENT AND ASSOCIATED RISKS

The value of the Warrants and the payment of a settlement amount to a Warrantholder will depend on the performance of the underlying asset(s), on the relevant valuation date(s).

The value of the Warrants is linked to the positive or negative performance of the underlying instrument(s)

The terms and conditions of the Warrants may include provisions which provide that upon the occurrence of certain market disruptions, delays in the settlement of the Warrants may occur or certain modifications to the terms and conditions of the Warrants may be made. Moreover, if events affecting the Underlying(s) occur, the terms and conditions of the Warrants may allow the Issuer to substitute the Underlying(s) by new underlying(s), cease the exposure to the Underlying(s) and apply a reference rate to the proceeds so obtained until the expiration date of the Warrants, postpone the expiration date of the Warrants, cancel the Warrants on the basis of the market value of these Warrants, or deduct from any due amount the increased cost of hedging, and in each case without the consent of the Warrantholders.

Payments on the Warrants are calculated by reference to the Underlying(s), the return of the Warrants is based on changes in the value of the Underlying(s), which may fluctuate. Prospective investors should be aware that these Warrants may be volatile and that they may lose all or a substantial portion of their investment.

During the lifetime of the Warrants, the market value of these Warrants may be lower than the invested capital.

Furthermore, an insolvency of the Issuer and/or the Guarantor may cause a total loss of the invested capital.

The value of the Warrants is affected by numerous factors, including changes in the value of the Underlying(s), time to expiration, interest and exchange rates, changes in dividend payments as well as levels of market volatility. These may have a net positive or negative impact on the value of the Warrants.

B.19 / B.4b	Known trends affecting the Guarantor and the industries in which	Societe Generale continues to be subject to the usual risks and the risks inherent in its business mentioned in Chapter 4 of the Registration Document filed on 8 March 2018, and in its updated version filed on 7 May 2018.

	<p>it operates</p>	<p>In a context of firming world growth, several risks continue to weigh on global economic prospects: risks of renewed financial tensions in Europe, risks of renewed turbulences (financial, social and political) in emerging economies, uncertainties related to unconventional monetary policy measures implemented in the main developed economies, the rise in terrorist risks as well as of geopolitical and protectionist tensions. More specifically, the Group could be affected by:</p> <ul style="list-style-type: none"> - renewed financial tensions in the Eurozone resulting from a return of doubts about the integrity of the monetary union, for example in the run-up to elections in a context of rising eurosceptic political forces; - fears regarding a possible tightening of international trade barriers, in particular in large developed economies (United States or, in the context of Brexit, United Kingdom for example); - a sudden rise in interest rates and markets volatility (bonds, equities and commodities), which could be triggered by inflationary fears, trade tensions or poor communication from main central banks when changing their monetary policy stance; - a sharp slowdown in economic activity in China, triggering capital flight from the country, depreciation pressures on the Chinese currency and, by contagion, on other emerging market currencies, as well as a fall in commodity prices; - worsening geopolitical tensions in the Middle East, South China Sea, North Korea or Ukraine. Further tensions between western countries and Russia could lead to stepping up of sanctions on the latter. - socio-political tensions in some countries dependent on oil and gas revenues and needing to adapt to reversal in commodities prices. <p>From a regulatory perspective, H1 2018 was marked in particular by the European legislative process around CRR2/CRD5, therefore the review of the capital adequacy directive and the CRR regulation. This is expected to continue in H2 and include the subjects MREL (Minimum Required Eligible Liabilities) and TLAC (Total Loss Absorbing Capacity). However, the transposition into European law of the agreement finalising the Basel III reforms is not yet on the agenda as regards European legislative institutions: an impact study is to be launched by the EBA and will serve to draft the future CRR3 regulation. Other current subjects concern notably the review of the systemic capital buffer for systemically important banks, the ECB's expectations in terms of provisioning the stock of non-performing loans and the review of the regime for investment firms in Europe.</p>
<p>B.19 / B.5</p>	<p>Description of the Guarantor's group and the Guarantor's position within the group</p>	<p>The Group offers a wide range of advisory services and tailored financial solutions to individual customers, large corporate and institutional investors. Section D – Risks

D.2	Key information on the key risks that are specific to the Issuer and the Guarantor	<p>An investment in the Warrants involves certain risks which should be assessed prior to any investment decision.</p> <p>In particular, the Group is exposed to the risks inherent in its core businesses, including:</p> <ul style="list-style-type: none"> • <u>global economic risks:</u> <p>The global economy and financial markets continue to display high levels of uncertainty, which may materially and adversely affect the Group’s business, financial situation and results of operations.</p> <p>The Group’s results may be affected by regional market exposures.</p> <p>The Group operates in highly competitive industries, including in its home market.</p> <ul style="list-style-type: none"> • <u>credit risks:</u> <p>The Group is exposed to counterparty risk and concentration risk.</p> <p>The Group’s hedging strategies may not prevent all risk of losses.</p> <p>The Group’s results of operations and financial situation could be adversely affected by a significant increase in new provisions or by inadequate provisioning for loan losses.</p> <ul style="list-style-type: none"> • <u>market risks:</u> <p>The protracted decline of financial markets or reduced liquidity in such markets may make it harder to sell assets or manoeuvre trade positions and could lead to material losses.</p> <p>The volatility of the financial markets may cause the Group to suffer significant losses on its trading and investment activities.</p> <p>The financial soundness and conduct of other financial institutions and market participants could adversely affect the Group.</p> <p>The Group may generate lower revenues from brokerage and other commission and fee-based businesses during market downturns.</p> <ul style="list-style-type: none"> • <u>operational risks:</u> <p>The Group’s risk management system may not be effective and may expose the Group to unidentified or unanticipated risks, which could lead to significant losses.</p> <p>Operational failure, termination or capacity constraints affecting institutions the Group does business with, or failure or breach of the Group’s information technology systems, could result in losses.</p> <p>To prepare its consolidated financial statements in accordance with IFRS as adopted by the European Union, Group relies on assumptions and estimates which, if incorrect, could have a significant impact on its financial statements.</p> <p>The Group’s ability to attract and retain qualified employees , as well as significant</p>

		<p>changes in the regulatory framework related to employees and compensation, may materially adversely affect its performance.</p> <p>If the Group makes an acquisition, it may be unable to manage the integration process in a cost-effective manner or achieve the expected benefits.</p> <p>The Group may incur losses as a result of unforeseen or catastrophic events, including terrorist attacks or natural disasters.</p> <ul style="list-style-type: none"> • <u>structural interest and exchange risks:</u> <p>Changes in interest rates may adversely affect the Group's banking and asset management businesses.</p> <p>Fluctuations in exchange rates could adversely affect the Group's results of operations.</p> <ul style="list-style-type: none"> • <u>liquidity risk:</u> <p>The Group depends on access to financing and other sources of liquidity, which may be restricted for reasons beyond its control.</p> <ul style="list-style-type: none"> • <u>non-compliance and reputational risks, litigation:</u> <p>Reputational damage could harm the Group's competitive position.</p> <p>The Group is exposed to legal risks that could negatively affect its financial situation or results of operations.</p> <p>The Group is subject to an extensive supervisory and regulatory framework in the countries in which it operates and changes in this regulatory framework could have a significant effect on the Group's businesses and costs, as well as on the financial and economic environment in which it operates.</p> <p>A number of exceptional measures taken by governments, central banks and regulators could be amended or terminated.</p> <ul style="list-style-type: none"> • <u>other risks</u> <p>Risks related to the implementation of the Group's strategic plan.</p> <p>The creditworthiness and credit ratings of the Issuer may affect the market value of the Warrants.</p> <p>The United Kingdom's impending departure from the European Union could adversely affect the Group.</p> <p>Since the Issuer is part of the Group, these risk factors are applicable to the Issuer.</p>
<p>D.6</p>	<p>Important warning to the investor</p>	<p>The possibility of an optional early expiration by the Issuer, on a predetermined date, is likely to have a negative effect on the market value of the Warrants. Prospective investors should consider the reinvestment risk in light of other investments available at the time of the early expiration. Furthermore, this optional early expiration at the only discretion of the Issuer could prevent the Warrantholders from benefitting from the performance of the underlying instrument(s) over the whole period initially envisaged.</p>

	<p>The terms and conditions of the Warrants may include provisions under which upon the occurrence of certain market disruptions delays in the settlement of the Warrants may be incurred or certain modifications be made. Moreover, in case of occurrence of events affecting the underlying instrument(s), the terms and conditions of the Warrants allow the Issuer to substitute the underlying instrument(s) by new underlying instrument(s), cease the exposure to the underlying asset(s) and apply a reference rate to the proceeds so obtained until the expiration date of the Warrants and offer the Warranholders the choice to cancel their Warrants early on the basis of the market value of these Warrants, cancel the Warrants on the basis of the market value of these Warrants, or deduct from any due amount the increased cost of hedging, and in each case without the consent of the Warranholders.</p> <p>Payments (whether at expiration or otherwise) on the Warrants are calculated by reference to certain underlying(s), the return of the Warrants is based on changes in the value of the underlying(s), which may fluctuate. Prospective investors should be aware that these Warrants may be volatile and that they may receive no return and may lose all or a substantial portion of their investment.</p> <p>The Guarantee constitutes a general and unsecured contractual obligation of the Guarantor and no other person, any payments on the Warrants are also dependent on the creditworthiness of the Guarantor.</p> <p>Prospective investors in Warrants benefiting from the Guarantee should note that in case of payment default of an Issuer the entitlement of the Warranholder will be limited to the sums obtained by making a claim under the Guarantee in accordance with its terms and they shall have no right to institute any proceeding, judicial or otherwise, or otherwise assert a claim against the Issuer.</p> <p>The Guarantee is a payment guarantee only and not a guarantee of the performance by the relevant Issuer or any of its other obligations under the Warrants benefiting from the Guarantee.</p> <p>Société Générale will act as issuer under Programme, as the Guarantor of the Warrants issued by the Issuer and also as provider of hedging instruments to the Issuer. As a result, investors will be exposed not only to the credit risk of the Guarantor but also operational risks arising from the lack of independence of the Guarantor, in assuming its duties and obligations as the Guarantor and provider of the hedging instruments.</p> <p>The potential conflicts of interests and operational risks arising from such lack of independence are in part intended to be mitigated by the fact that different divisions within the Guarantor will be responsible for implementing the Guarantee and providing the hedging instruments and that each division is run as a separate operational unit, segregated by Chinese walls (information barriers) and run by different management teams.</p> <p>The Issuer and the Guarantor and any of their subsidiaries and/or their affiliates, in connection with their other business activities, may possess or acquire material information about the underlying assets. Such activities and information may cause consequences adverse to Warranholders.</p> <p>The Issuer and the Guarantor and any of their subsidiaries and/or their affiliates may act in other capacities with regard to the Warrants, such as market maker, calculation agent or agent. Therefore, a potential conflict of interests may arise.</p> <p>In connection with the offering of the Warrants, the Issuer and the Guarantor and/or their affiliates may enter into one or more hedging transaction(s) with respect to a reference asset(s) or related derivatives, which may affect the market price, liquidity or value of the Warrants.</p> <p>During the lifetime of the Warrants, the market value of these Warrants may be lower than the invested capital. Furthermore, an insolvency of the Issuer and/or the Guarantor may cause a total loss of the invested capital.</p> <p>The regulation and reform of “benchmarks” may adversely affect the value of Warrants linked to or referencing such “benchmarks”</p> <p>The attention of the investors is drawn to the fact that they could sustain an entire or a partial loss of their investment.</p>

B.19 / B.4b	Tendencias conocidas relativas al Emisor y a los sectores en los que opera	<p>Société Générale sigue estando sometida a los riesgos habituales y a los riesgos inherentes a su actividad mencionados en el capítulo 4 del Documento de Registro presentado el 8 de marzo de 2018 y en su versión actualizada presentada el 7 de mayo de 2018.</p> <p>En un contexto de reafirmación del crecimiento mundial, varios riesgos siguen pesando sobre las perspectivas económicas mundiales: los riesgos de nuevas tensiones financieras en Europa, los riesgos de nuevas turbulencias (financieras, sociales y políticas) en las economías emergentes, las incertidumbres relacionadas con las medidas no convencionales de política monetaria aplicadas en las principales economías desarrolladas, el aumento de los riesgos terroristas y de las tensiones geopolíticas y proteccionistas. Más concretamente, el Grupo podría verse afectado por:</p> <ul style="list-style-type: none"> - la reanudación de las tensiones financieras en la zona euro como consecuencia del retorno de las dudas sobre la integridad de la unión monetaria, por ejemplo, en vísperas de las elecciones en un contexto de aumento de las fuerzas políticas euroescépticas; - temores sobre un posible endurecimiento de las barreras comerciales internacionales, en particular en las grandes economías desarrolladas (Estados Unidos o, en el contexto de Brexit, Reino Unido, por ejemplo); - un aumento repentino de los tipos de interés y de la volatilidad de los mercados (renta fija, renta variable y materias primas), que podría desencadenarse por temores inflacionistas, tensiones comerciales o falta de comunicación por parte de los principales bancos centrales al cambiar la orientación de su política monetaria; - una fuerte desaceleración de la actividad económica en China, que provoque la fuga de capitales del país, presiones para la depreciación sobre la moneda china y, por contagio, sobre otras monedas de mercados emergentes, así como una caída de los precios de las materias primas; - el empeoramiento de las tensiones geopolíticas en Oriente Próximo, el Mar de China Meridional, Corea del Norte o Ucrania. El aumento de las tensiones entre los países occidentales y Rusia podría dar lugar a un aumento de las sanciones contra este último país. - tensiones sociopolíticas en algunos países que dependen de los ingresos del petróleo y del gas y que necesitan adaptarse al cambio de los precios de las materias primas. <p>Desde una perspectiva regulatoria, el primer semestre de 2018 estuvo marcado, en particular, por el proceso legislativo europeo en torno a la CRR2/CRD5 y, por tanto, por la revisión de la directiva de adecuación del capital y el reglamento CRR. Se espera que esto continúe en el segundo semestre e incluya los temas MREL (Mínimo Requerido de Pasivos Elegibles) y TLAC (Capacidad Total de Absorción de Pérdidas). Sin embargo, la transposición al Derecho europeo del acuerdo por el que se concluyen las reformas de Basilea III no figura todavía en el orden del día de las instituciones legislativas europeas: la ABE pondrá en marcha un estudio de impacto que servirá</p>

		para elaborar el futuro Reglamento CRR3. Otros temas de actualidad se refieren, en particular, a la revisión del colchón sistémico de capital para los bancos de importancia sistémica, a las expectativas del BCE en cuanto a la provisión del saldo de los préstamos de dudoso cobro y a la revisión del régimen de las empresas de inversión en Europa.

Sección D – Riesgos

D.2 Información fundamental sobre los principales riesgos específicos del emisor [y del garante]

La inversión en los Warrants implica ciertos riesgos que deberían ser evaluados antes de tomar la decisión de invertir.

En concreto, el Grupo está expuesto a los riesgos inherentes a sus negocios principales, incluyendo:

- riesgos económicos globales:

La economía global y los mercados financieros siguen mostrando altos niveles de incertidumbre, que pueden afectar de forma material y adversa al negocio del Grupo, su situación financiera y sus resultados operativos.

Los resultados del Grupo pueden resultar afectados por las exposiciones a mercados regionales.

El Grupo opera en industrias altamente competitivas, incluyendo en el mercado doméstico.

- riesgos de crédito:

El Grupo está expuesto al riesgo de contraparte y al riesgo de concentración.

Las estrategias de cobertura del Grupo no pueden prevenir todos los riesgos de pérdida.

Los resultados operativos y la situación financiera del Grupo podrían verse adversamente afectados por un aumento significativo de las provisiones o por aprovisionamientos insuficientes para pérdidas de préstamos.

- riesgo de mercado:

El deterioro prolongado de los mercados financieros o la reducción de liquidez en dichos mercados podría dificultar la venta de activos o la gestión de las posiciones de mercado y conducir a pérdidas significativas.

La volatilidad de los mercados financieros puede hacer que el Grupo sufra pérdidas significativas en sus actividades comerciales y de inversión.

La solidez financiera y el comportamiento de otras entidades financieras y agentes de mercado podrían afectar adversamente al Grupo.

El Grupo puede generar menores ingresos de intermediación y otras comisiones, y por negocios basados en comisiones, durante los periodos de deterioro de los mercados.

- riesgo operativo:

El sistema de gestión de riesgos del Grupo puede no ser eficaz y exponer al Grupo a riesgos no identificados o imprevistos que podrían conducir a pérdidas significativas.

La paralización, el cierre o las limitaciones de capacidad de las instituciones con las que el Grupo se relaciona en sus negocios, o la avería o incumplimiento de los sistemas de tecnologías de la información del Grupo, podrían dar lugar a pérdidas.

Para preparar sus estados financieros consolidados de acuerdo con IFRS, tal y como ha sido adoptado por la Unión Europea, el Grupo se basa en suposiciones y estimaciones que, de ser incorrectas, podrían tener un impacto significativo en

		<p>sus estados financieros.</p> <p>La capacidad del Grupo para atraer y retener empleados cualificados , así como los cambios en el marco regulatorio relativo a los empleados y compensaciones, podría tener un importante efecto negativo en su rendimiento.</p> <p>Si el Grupo realiza una adquisición, puede que no sea capaz de gestionar el proceso de integración de manera rentable o de lograr los beneficios esperados.</p> <p>El Grupo podría incurrir en pérdidas como resultado de acontecimientos imprevistos o catastróficos, incluyendo ataques terroristas o desastres naturales.</p> <ul style="list-style-type: none"> • <u>riesgos estructurales de tipos de interés y de tipo de cambio:</u> <p>Los cambios en los tipos de interés pueden afectar negativamente a los negocios de banca y gestión de activos del Grupo.</p> <p>Las fluctuaciones de los tipos de cambio pueden afectar negativamente a los resultados operativos del Grupo.</p> <ul style="list-style-type: none"> • <u>riesgo de liquidez:</u> <p>El Grupo depende del acceso a la financiación y a otras fuentes de liquidez que pueden estar limitadas por razones que no dependen de él.</p> <ul style="list-style-type: none"> • <u>riesgos en caso de incumplimiento y reputacionales y litigación:</u> <p>Un daño reputacional podría perjudicar la competitividad del Grupo.</p> <p>El Grupo está expuesto a riesgos legales que pueden tener un efecto negativo en su situación financiera o en sus resultados operativos.</p> <p>El Grupo está sujeto a un exigente marco regulatorio y de supervisión en los países en los que opera y los cambios en este marco regulatorio podrían tener un efecto significativo en las actividades y costes del Grupo, así como en el ambiente económico y financiero en el que opera.</p> <p>Una serie de medidas excepcionales adoptadas por los gobiernos, bancos centrales y los reguladores podrían verse modificadas o culminadas.</p> <ul style="list-style-type: none"> • <u>otros riesgos:</u> <p>Riesgos relativos a la implementación del plan estratégico del Grupo.</p> <p>La solvencia y la calificación crediticia del Emisor pueden afectar al valor de mercado de sus Warrants.</p> <p>La inminente salida del Reino Unido de la Unión Europea puede afectar adversamente al Grupo.</p> <p>Dado que el Emisor es parte del Grupo, estos factores de riesgo también resultan aplicables al Emisor.</p>
D.6	Advertencia importante para los inversores	<p>La posibilidad de un vencimiento anticipado a elección del Emisor, en una fecha predeterminada, podría tener un efecto negativo en la valoración de los Warrants. Los potenciales inversores deberían considerar el riesgo de reinversión a la luz de otras inversiones disponibles en el momento del vencimiento anticipado. Además, este vencimiento anticipado opcional a discreción del Emisor podría impedir a los Tenedores de los Warrants beneficiarse de la evolución del/de los instrumento(s)</p>

		<p>subyacente(s) en todo el periodo inicialmente previsto.</p> <p>Los términos y condiciones de los Warrants podrían incluir estipulaciones en virtud de las cuales ciertas interrupciones de mercado podrían causar retrasos en la liquidación de los Warrants o la introducción de ciertas modificaciones. Además, en el caso de producirse situaciones que afectaran a los instrumentos subyacentes, los términos y condiciones de los Warrants permiten al Emisor sustituir los instrumentos subyacentes por otros instrumentos subyacentes nuevos, suspender la exposición a los activos subyacentes y aplicar un tipo de referencia a los importes así obtenidos hasta la fecha de vencimiento de los Warrants y ofrecer a los Titulares de los Warrants la posibilidad de cancelar anticipadamente sus Warrants al valor de mercado de dichos Warrants, cancelar los Warrants sobre la base del valor de mercado de los mismos, o deducir de cualquier importe adeudado el coste incrementado de cobertura, y en cada caso sin el consentimiento de los Tenedores de los Warrants.</p> <p>Los pagos a realizar (ya sea en la fecha de vencimiento o en cualquier otro momento) en virtud de los Warrants se calculan por referencia a ciertos subyacentes, la rentabilidad de los Warrants se basa en variaciones del valor de los subyacentes, estando sujeta a fluctuaciones. Las personas que se planteen invertir en los Warrants deben saber que estos Warrants pueden ser volátiles y que podrían no obtener ninguna rentabilidad y perder íntegramente o una proporción sustancial de su inversión.</p> <p>La Garantía constituye una obligación contractual general y no garantizada del Garante y de ninguna otra persona. El pago de los Warrants depende también de la capacidad crediticia del Garante.</p> <p>Las personas que se planteen invertir en los Warrants con el beneficio de la Garantía deben tener en cuenta que, en caso de impago de un Emisor, los derechos del Tenedor de los Warrants estarán limitados a las sumas que obtenga al reclamar la ejecución de la Garantía de conformidad con las condiciones de la misma y no tendrán derecho a entablar procedimiento judicial o de otro tipo, ni a interponer por otra vía una reclamación contra el Emisor.</p> <p>La Garantía constituye exclusivamente una garantía de pago y no una garantía de rendimiento por parte del correspondiente Emisor o de cualquiera de sus otras obligaciones derivadas de los Warrants que se benefician de la Garantía.</p> <p>Société Générale actúa como emisor con arreglo al Programa, como Garante de los Warrants emitidos por el Emisor y asimismo como proveedor de instrumentos de cobertura para el Emisor. Por consiguiente, los inversores estarán expuestos no sólo al riesgo de crédito del Garante, sino también a los riesgos operativos derivados de la falta de independencia del Garante, al asumir sus obligaciones y deberes como tal Garante y proveedor de los instrumentos de cobertura.</p> <p>Se pretende que los posibles conflictos de intereses y riesgos operativos que se deriven de dicha falta de independencia se vean en parte mitigados por el hecho de que existirán distintas divisiones dentro del Garante que serán responsables de poner en práctica la Garantía y de aportar los instrumentos de cobertura, y porque cada división se gestionará como una unidad operativa distinta, separadas por “murallas chinas” (barreras al intercambio de información) y dirigidas por distintos equipos de dirección.</p> <p>El Emisor y el Garante, así como sus filiales y/o entidades vinculadas podrán, en relación con sus otras actividades empresariales, adquirir o estar en posesión de información sensible acerca de los activos subyacentes. Dichas actividades e información pueden tener consecuencias perjudiciales para los Tenedores de los Warrants.</p> <p>El Emisor y el Garante, así como sus filiales y/o entidades vinculadas podrán</p>
--	--	--

	<p>asumir funciones diferentes respecto de los Warrants, tales como las de especialista, agente de cálculo o agente. Por consiguiente, puede surgir la posibilidad de un conflicto de intereses.</p> <p>En relación con la oferta de los Warrants, el Emisor y el Garante, así como sus filiales y/o entidades vinculadas pueden celebrar una o más operaciones de cobertura con respecto a los activos de referencia o a los correspondientes derivados, que pueden afectar al precio de mercado, a la liquidez o al valor de los Warrants.</p> <p>Durante la vigencia de los Warrants, su valor de mercado puede ser inferior al capital invertido. Además, la insolvencia del Emisor y/o del Garante puede provocar la pérdida total del capital invertido.</p> <p>La regulación y reforma de los “índices de referencia” (“<i>benchmarks</i>”) puede afectar negativamente el valor de los Warrants vinculados a o referidos a dichos “índices de referencia” (“<i>benchmarks</i>”).</p> <p>Se advierte a los inversores de que podrían sufrir la pérdida total o parcial de su inversión.</p>
