

APPLICABLE FINAL TERMS

Dated 05/09/2018

MiFID II product governance – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Warrants, taking into account the five categories referred to in item 18 of the Guidelines published by ESMA on 5 February 2018 as well as the determination of the appropriate distribution channel, has been made and is available on the following website: <https://regulatory.sgbol.com/#/mifid2/emt> (the "Target Market"). Any person subsequently offering, selling or recommending the Warrants (a "distributor") should take into consideration the Target Market assessment and the suggested distribution strategy for the product; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Warrants (by either adopting or refining the Target Market assessment) and determining appropriate distribution channels.

There is no Structured Amount in respect of each issue of Warrants.

In respect of each issue of Warrants, the Warrants are not subject to Event-linked Early Expiration.

In respect of each issue of Warrants, the Warrants are cash settled.

In respect of each issue of Warrants, the Warrants will only be exercised if on the relevant Valuation Date(T), the level of the relevant Underlying is above the relevant Exercise Price.

In respect of each issue of Warrants, if the level of the relevant Underlying is above the relevant Exercise Price on the relevant Valuation Date(T), then the Warrantholders will be entitled to receive a Cash Settlement Amount equal to the level of the relevant Underlying minus the relevant Exercise Price, being clarified that the Cash Settlement Amount will be expressed as a EUR amount on the basis of the relevant applicable rate of exchange which is the relevant rate published on the relevant Valuation Date(T) for conversion of any amount from the currency in which the Exercise Price is expressed into the Settlement Currency. If the currency in which Exercise Price is expressed is the same as the Settlement Currency, then the applicable Conversion Rate will be equal to 1.

In respect of each issue of Warrants, if the level of the relevant Underlying is at or below the relevant Exercise Price on the relevant Valuation Date(T), then the Warrants will not be exercised and the value of the Warrants at expiration will be zero.

Prior to expiry, the value of each issue of Warrants is essentially affected by changes in the value of the relevant Underlying as well as other factors including, without limitation, its volatility, the time to maturity of the

Warrants, and interest rates. These may have a net positive or negative impact on the value of the Warrants.

B.19 / B.4b	Known trends affecting the Guarantor and the industries in which it operates	<p>Societe Generale continues to be subject to the usual risks and the risks inherent in its business mentioned in Chapter 4 of the Registration Document filed on 8 March 2018, and in its updated version filed on 7 May 2018.</p> <p>In a context of firming world growth, several risks continue to weigh on global economic prospects: risks of renewed financial tensions in Europe, risks of renewed turbulences (financial, social and political) in emerging economies, uncertainties related to unconventional monetary policy measures implemented in the main developed economies, the rise in terrorist risks as well as of geopolitical and protectionist tensions. More specifically, the Group could be affected by:</p> <ul style="list-style-type: none"> - renewed financial tensions in the Eurozone resulting from a return of doubts about the integrity of the monetary union, for example in the run-up to elections in a context of rising eurosceptic political forces; - fears regarding a possible tightening of international trade barriers, in particular in large developed economies (United States or, in the context of Brexit, United Kingdom for example); - a sudden rise in interest rates and markets volatility (bonds, equities and commodities), which could be triggered by inflationary fears, trade tensions or poor communication from main central banks when changing their monetary policy stance;

		<p>- a sharp slowdown in economic activity in China, triggering capital flight from the country, depreciation pressures on the Chinese currency and, by contagion, on other emerging market currencies, as well as a fall in commodity prices;</p> <p>- worsening geopolitical tensions in the Middle East, South China Sea, North Korea or Ukraine. Further tensions between western countries and Russia could lead to stepping up of sanctions on the latter. - socio-political tensions in some countries dependent on oil and gas revenues and needing to adapt to reversal in commodities prices.</p> <p>From a regulatory perspective, H1 2018 was marked in particular by the European legislative process around CRR2/CRD5, therefore the review of the capital adequacy directive and the CRR regulation. This is expected to continue in H2 and include the subjects MREL (Minimum Required Eligible Liabilities) and TLAC (Total Loss Absorbing Capacity). However, the transposition into European law of the agreement finalising the Basel III reforms is not yet on the agenda as regards European legislative institutions: an impact study is to be launched by the EBA and will serve to draft the future CRR3 regulation. Other current subjects concern notably the review of the systemic capital buffer for systemically important banks, the ECB's expectations in terms of provisioning the stock of non-performing loans and the review of the regime for investment firms in Europe.</p>																														
B.19 / B.5	Description of the Guarantor's group and the Guarantor's position within the group	<p>The Group offers a wide range of advisory services and tailored financial solutions to individual customers, large corporate and institutional investors. D.6	Important warning to the investor	<p>The terms and conditions of the Warrants may include provisions under which upon the occurrence of certain market disruptions delays in the settlement of the Warrants may be incurred or certain modifications be made. Moreover, in case of occurrence of events affecting the underlying instrument(s), the terms and conditions of the Warrants allow the Issuer to substitute the underlying instrument(s) by new underlying instrument(s), cease the exposure to the underlying asset(s) and apply a reference rate to the proceeds so obtained until the expiration date of the Warrants and offer the Warrantholders the choice to cancel their Warrants early on the basis of the market value of these Warrants, cancel the Warrants on the basis of the market value of these Warrants, or deduct from any due amount the increased cost of hedging, and in each case without the consent of the Warrantholders.</p> <p>Payments (whether at expiration or otherwise) on the Warrants are calculated by reference to certain underlying(s), the return of the Warrants is based on changes in the value of the underlying(s), which may fluctuate. Prospective investors should be aware that these Warrants may be volatile and that they may receive no return and may lose all or a substantial portion of their investment.</p>

The Guarantee constitutes a general and unsecured contractual obligation of the Guarantor and no other person, any payments on the Warrants are also dependent on the creditworthiness of the Guarantor.

Prospective investors in Warrants benefiting from the Guarantee should note that in case of payment default of an Issuer the entitlement of the Warrantholder will be limited to the sums obtained by making a claim under the Guarantee in accordance with its terms and they shall have no right to institute any proceeding, judicial or otherwise, or otherwise assert a claim against the Issuer.

The Guarantee is a payment guarantee only and not a guarantee of the performance by the relevant Issuer or any of its other obligations under the Warrants benefiting from the Guarantee.

Société Générale will act as issuer under Programme, as the Guarantor of the Warrants issued by the Issuer and also as provider of hedging instruments to the Issuer. As a result, investors will be exposed not only to the credit risk of the Guarantor but also operational risks arising from the lack of independence of the Guarantor, in assuming its duties and obligations as the Guarantor and provider of the hedging instruments.

The potential conflicts of interests and operational risks arising from such lack of independence are in part intended to be mitigated by the fact that different divisions within the Guarantor will be responsible for implementing the Guarantee and providing the hedging instruments and that each division is run as a separate operational unit, segregated by Chinese walls (information barriers) and run by different management teams.

The Issuer and the Guarantor and any of their subsidiaries and/or their affiliates, in connection with their other business activities, may possess or acquire material information about the underlying assets. Such activities and information may cause consequences adverse to Warrantholders.

The Issuer and the Guarantor and any of their subsidiaries and/or their affiliates may act in other capacities with regard to the Warrants, such as market maker, calculation agent or agent. Therefore, a potential conflict of interests may arise.

In connection with the offering of the Warrants, the Issuer and the Guarantor and/or their affiliates may enter into one or more hedging transaction(s) with respect to a reference asset (s) or related derivatives, which may affect the market price, liquidity or value of the Warrants.

During the lifetime of the Warrants, the market value of these Warrants may be lower than the invested capital. Furthermore, an insolvency of the Issuer and/or the Guarantor may cause a total loss of the invested capital.

The attention of the investors is drawn to the fact that they could sustain an entire or a partial loss of their investment.

		<p>de política monetaria aplicadas en las principales economías desarrolladas, el aumento de los riesgos terroristas y de las tensiones geopolíticas y proteccionistas. Más concretamente, el Grupo podría verse afectado por:</p> <ul style="list-style-type: none"> - la reanudación de las tensiones financieras en la zona euro como consecuencia del retorno de las dudas sobre la integridad de la unión monetaria, por ejemplo, en vísperas de las elecciones en un contexto de aumento de las fuerzas políticas euroescépticas; - temores sobre un posible endurecimiento de las barreras comerciales internacionales, en particular en las grandes economías desarrolladas (Estados Unidos o, en el contexto de Brexit, Reino Unido, por ejemplo); - un aumento repentino de los tipos de interés y de la volatilidad de los mercados (renta fija, renta variable y materias primas), que podría desencadenarse por temores inflacionistas, tensiones comerciales o falta de comunicación por parte de los principales bancos centrales al cambiar la orientación de su política monetaria; - una fuerte desaceleración de la actividad económica en China, que provoque la fuga de capitales del país, presiones para la depreciación sobre la moneda china y, por contagio, sobre otras monedas de mercados emergentes, así como una caída de los precios de las materias primas; - el empeoramiento de las tensiones geopolíticas en Oriente Próximo, el Mar de China Meridional, Corea del Norte o Ucrania. El aumento de las tensiones entre los países occidentales y Rusia podría dar lugar a un aumento de las sanciones contra este último país. - tensiones sociopolíticas en algunos países que dependen de los ingresos del petróleo y del gas y que necesitan adaptarse al cambio de los precios de las materias primas. <p>Desde una perspectiva regulatoria, el primer semestre de 2018 estuvo marcado, en particular, por el proceso legislativo europeo en torno a la CRR2/CRD5 y, por tanto, por la revisión de la directiva de adecuación del capital y el reglamento CRR. Se espera que esto continúe en el segundo semestre e incluya los temas MREL (Mínimo Requerido de Pasivos Elegibles) y TLAC (Capacidad Total de Absorción de Pérdidas). Sin embargo, la transposición al Derecho europeo del acuerdo por el que se concluyen las reformas de Basilea III no figura todavía en el orden del día de las instituciones legislativas europeas: la ABE pondrá en marcha un estudio de impacto que servirá para elaborar el futuro Reglamento CRR3. Otros temas de actualidad se refieren, en particular, a la revisión del colchón sistémico de capital para los bancos de importancia sistémica, a las expectativas del BCE en cuanto a la provisión del saldo de los préstamos de dudoso cobro y a la revisión del régimen de las empresas de inversión en Europa.</p>

D.6	Advertencia importante para los inversores	<p>Los términos y condiciones de los Warrants podrían incluir estipulaciones en virtud de las cuales ciertas interrupciones de mercado podrían causar retrasos en la liquidación de los Warrants o la introducción de ciertas modificaciones. Además, en el caso de producirse situaciones que afectaran a los instrumentos subyacentes, los términos y condiciones de los Warrants permiten al Emisor sustituir los instrumentos subyacentes por otros instrumentos subyacentes nuevos, suspender la exposición a los activos subyacentes y aplicar un tipo de referencia a los importes así obtenidos hasta la fecha de vencimiento de los Warrants y ofrecer a los Titulares de los Warrants la posibilidad de cancelar anticipadamente sus Warrants al valor de mercado de dichos Warrants, cancelar los Warrants sobre la base del valor de mercado de los mismos, o deducir de cualquier importe adeudado el coste incrementado de cobertura, y en cada caso sin el consentimiento de los Tenedores de los</p>

	<p>Warrants.</p> <p>Los pagos a realizar (ya sea en la fecha de vencimiento o en cualquier otro momento) en virtud de los Warrants se calculan por referencia a ciertos subyacentes, la rentabilidad de los Warrants se basa en variaciones del valor de los subyacentes, estando sujeta a fluctuaciones. Las personas que se planteen invertir en los Warrants deben saber que estos Warrants pueden ser volátiles y que podrían no obtener ninguna rentabilidad y perder íntegramente o una proporción sustancial de su inversión.</p> <p>La Garantía constituye una obligación contractual general y no garantizada del Garante y de ninguna otra persona. El pago de los Warrants depende también de la capacidad crediticia del Garante.</p> <p>Las personas que se planteen invertir en los Warrants con el beneficio de la Garantía deben tener en cuenta que, en caso de impago de un Emisor, los derechos del Tenedor de los Warrants estarán limitados a las sumas que obtenga al reclamar la ejecución de la Garantía de conformidad con las condiciones de la misma y no tendrán derecho a entablar procedimiento judicial o de otro tipo, ni a interponer por otra vía una reclamación contra el Emisor.</p> <p>La Garantía constituye exclusivamente una garantía de pago y no una garantía de rendimiento por parte del correspondiente Emisor o de cualquiera de sus otras obligaciones derivadas de los Warrants que se benefician de la Garantía.</p> <p>Société Générale actúa como emisor con arreglo al Programa, como Garante de los Warrants emitidos por el Emisor y asimismo como proveedor de instrumentos de cobertura para el Emisor. Por consiguiente, los inversores estarán expuestos no sólo al riesgo de crédito del Garante, sino también a los riesgos operativos derivados de la falta de independencia del Garante, al asumir sus obligaciones y deberes como tal Garante y proveedor de los instrumentos de cobertura.</p> <p>Se pretende que los posibles conflictos de intereses y riesgos operativos que se deriven de dicha falta de independencia se vean en parte mitigados por el hecho de que existirán distintas divisiones dentro del Garante que serán responsables de poner en práctica la Garantía y de aportar los instrumentos de cobertura, y porque cada división se gestionará como una unidad operativa distinta, separadas por “murallas chinas” (barreras al intercambio de información) y dirigidas por distintos equipos de dirección.</p> <p>El Emisor y el Garante, así como sus filiales y/o entidades vinculadas podrán, en relación con sus otras actividades empresariales, adquirir o estar en posesión de información sensible acerca de los activos subyacentes. Dichas actividades e información pueden tener consecuencias perjudiciales para los Tenedores de los Warrants.</p> <p>El Emisor y el Garante, así como sus filiales y/o entidades vinculadas podrán asumir funciones diferentes respecto de los Warrants, tales como las de especialista, agente de cálculo o agente. Por consiguiente, puede surgir la posibilidad de un conflicto de intereses.</p> <p>En relación con la oferta de los Warrants, el Emisor y el Garante, así como sus filiales y/o entidades vinculadas pueden celebrar una o más operaciones de cobertura con respecto a los activos de referencia o a los correspondientes derivados, que pueden afectar al precio de mercado, a la liquidez o al valor de los Warrants.</p> <p>Durante la vigencia de los Warrants, su valor de mercado puede ser inferior al capital invertido. Además, la insolvencia del Emisor y/o del Garante puede provocar la pérdida total del capital invertido.</p> <p>Se advierte a los inversores de que podrían sufrir la pérdida total o parcial de su inversión.</p>
