B.19 / B.1	Legal and commercial name of the Guarantor	Société Générale (or the Guarantor)
B.19 / B.2	Domicile, legal form, legislation and country of incorporation	<p>Domicile: 29, boulevard Haussmann, 75009 Paris, France.</p> <p>Legal form: Public limited liability company (<i>société anonyme</i>).</p> <p>Legislation under which the Guarantor operates: French law.</p> <p>Country of incorporation: France.</p>
B.19 / B.4b	Known trends affecting the Guarantor and the industries in which it operates	<p>Société Générale continues to be subject to the usual risks and the risks inherent to its business.</p> <p>Despite a welcome bounce back on the GDP figures of the first quarter of 2019 in many of the advanced economies, most signals still point to a slowdown of the global economy ahead, amidst heightened tariff tensions between the United States and China, on-going Brexit uncertainty and various country-specific headwinds.</p> <p>Financial markets have become more focused on the political risks amidst concerns that these are now biting into the growth outlook. Tensions on the markets related to the uncertainties mentioned cannot be excluded as well as a more pronounced slowdown in investment, which could in turn precipitate a more pronounced slowdown. In addition the oil market remains highly volatile.</p> <p>Against a backdrop of low inflation and signs of slowing growth, central banks have shifted to a more accommodative tone in their forward guidance.</p> <p>The fiscal stance is set to turn less favourable in the US heading into 2020 but should remain supportive in China. Within the euro area, the fiscal policy varies by member state.</p> <p>Regarding the evolution of the financial markets, the six-month extension announced in early April for the Brexit had provided an initial reprieve after a difficult start to 2019, but the escalation of trade tensions in May, fears of technological supply chain disruption and geopolitical tensions (for example, US sanctions against Iran) again undermined market confidence in the second quarter of the year.</p> <p>Concerning the specific trajectories of the world's major economies:</p> <ul style="list-style-type: none"> • US growth remains dynamic driven by private and public consumption, but we have doubts about the durability of such performance. The fading of fiscal stimulus as of mid-2019 and lower corporate earnings -as margins deteriorate with higher import tariffs and rising labour costs- will weaken the economy going forward. • Economic activity in the euro area is underpinned by firm domestic consumption and strong labour markets, but growth is set to decelerate in 2019 and 2020 amidst weakening exports

		<p>and lower investment.</p> <ul style="list-style-type: none"> • The UK economy has lost significant momentum on the back of Brexit uncertainty. • Japan's economic growth accelerated in the first quarter of 2019 but private consumption and capital expenditure are now contracting. • Faced with the risk of a sharp slowdown, China has engaged policy easing using a mix of fiscal and monetary measures. • Growth prospects are uneven among emerging markets. While financial conditions remain benign, especially following the pullback in US hike rates expectations, emerging markets face large corporate debt repayments in 2019-2021 and are still vulnerable to changing market sentiment. <p>- From a regulatory perspective, H1 2019 was marked by the adoption of the CRR2/CRD5 banking package. This group of texts entered into force on 27 June 2019. Most provisions apply in 2 years, from June 2021, but some of them such as the TLAC (Total Loss Absorbing Capacity) apply as of the end of June 2019. The CRD5 directive will apply once it will be transposed into French law, expected by the end of 2020 at the latest. However, the transposition into European law of the agreement finalizing the Basel III reforms is not yet on the agenda as regards European legislative institutions.</p>

D.6	Important warning to the investor	<p>The terms and conditions of the Warrants may include provisions under which upon the occurrence of certain market disruptions delays in the settlement of the Warrants may be incurred or certain modifications be made. Moreover, in case of occurrence of events affecting the underlying instrument(s), the terms and conditions of the Warrants allow the Issuer to substitute the underlying instrument(s) by new underlying instrument(s), cease the exposure to the underlying asset(s) and apply a reference rate to the proceeds so obtained until the expiration date of the Warrants and offer the Warrantholders the choice to cancel their Warrants early on the basis of the market value of these Warrants, cancel the Warrants on the basis of the market value of these Warrants, or deduct from any due amount the increased cost of hedging, and in each case without the consent of the Warrantholders.</p> <p>Payments (whether at expiration or otherwise) on the Warrants are calculated by reference to certain underlying(s), the return of the Warrants is based on changes in the value of the underlying(s), which may fluctuate. Prospective investors should be aware that these Warrants may be volatile and that they may receive no return and may lose all or a substantial portion of their investment.</p> <p>The Guarantee constitutes a general and unsecured contractual obligation of the Guarantor and no other person, any payments on the Warrants are also dependent on the creditworthiness of the Guarantor.</p> <p>Prospective investors in Warrants benefiting from the Guarantee should note that in case of payment default of an Issuer the entitlement of the Warrantholder will be limited to the sums obtained by making a claim under the Guarantee in accordance with its terms and they shall</p>

	<p>have no right to institute any proceeding, judicial or otherwise, or otherwise assert a claim against the Issuer.</p> <p>The Guarantee is a payment guarantee only and not a guarantee of the performance by the relevant Issuer or any of its other obligations under the Warrants benefiting from the Guarantee.</p> <p>Société Générale will act as issuer under Programme, as the Guarantor of the Warrants issued by the Issuer and also as provider of hedging instruments to the Issuer. As a result, investors will be exposed not only to the credit risk of the Guarantor but also operational risks arising from the lack of independence of the Guarantor, in assuming its duties and obligations as the Guarantor and provider of the hedging instruments.</p> <p>The potential conflicts of interests and operational risks arising from such lack of independence are in part intended to be mitigated by the fact that different divisions within the Guarantor will be responsible for implementing the Guarantee and providing the hedging instruments and that each division is run as a separate operational unit, segregated by Chinese walls (information barriers) and run by different management teams.</p> <p>The Issuer and the Guarantor and any of their subsidiaries and/or their affiliates, in connection with their other business activities, may possess or acquire material information about the underlying assets. Such activities and information may cause consequences adverse to Warranholders.</p> <p>The Issuer and the Guarantor and any of their subsidiaries and/or their affiliates may act in other capacities with regard to the Warrants, such as market maker, calculation agent or agent. Therefore, a potential conflict of interests may arise.</p> <p>In connection with the offering of the Warrants, the Issuer and the Guarantor and/or their affiliates may enter into one or more hedging transaction(s) with respect to a reference asset (s) or related derivatives, which may affect the market price, liquidity or value of the Warrants.</p> <p>During the lifetime of the Warrants, the market value of these Warrants may be lower than the invested capital. Furthermore, an insolvency of the Issuer and/or the Guarantor may cause a total loss of the invested capital.</p> <p>The regulation and reform of “benchmarks” may adversely affect the value of Warrants linked to or referencing such “benchmarks”.</p> <p>The attention of the investors is drawn to the fact that they could sustain an entire or a partial loss of their investment.</p>

B.19 / B.4b	Tendencias conocidas relativas al Emisor y a los sectores	<p>Société Générale sigue estando sometida a los riesgos habituales y a los riesgos inherentes a su actividad.</p> <p>A pesar de que las cifras del PIB del primer trimestre de 2019 se han recuperado en muchas</p>

<p>en los que opera</p>	<p>de las economías avanzadas, la mayoría de las previsiones siguen apuntando a una desaceleración de la economía mundial en el futuro, en medio de las crecientes tensiones arancelarias entre Estados Unidos y China, la incertidumbre actual del Brexit y los factores adversos específicos a cada país.</p> <p>Los mercados financieros se han centrado más en los riesgos políticos, en medio de la preocupación de que los mismos estén afectando a las perspectivas de crecimiento. No pueden tampoco excluirse las tensiones en los mercados relacionadas con las incertidumbres mencionadas, así como una ralentización más pronunciada de la inversión, que a su vez podría precipitar una desaceleración más acusada. Además, el mercado del petróleo sigue siendo muy volátil.</p> <p>En un contexto de baja inflación y signos de desaceleración del crecimiento, los bancos centrales han adoptado una actitud más flexible en lo que respecta a la orientación futura de su política monetaria.</p> <p>Se prevé que la política fiscal se vuelva menos favorable en EE.UU. hacia 2020, aunque debería seguir siendo favorable en China. Dentro de la zona euro, la política fiscal varía según los Estados miembros.</p> <p>En relación con la evolución de los mercados financieros, la prórroga de seis meses anunciada a principios de abril para el Brexit ha proporcionado un alivio inicial tras un difícil comienzo de 2019, pero el aumento de las tensiones comerciales en mayo, los temores de interrupción de la cadena de suministro tecnológico y las tensiones geopolíticas (por ejemplo, las sanciones de EE.UU. contra Irán) han debilitado la confianza en el mercado en el segundo trimestre del año.</p> <p>Respecto de las trayectorias específicas de las principales economías mundiales:</p> <ul style="list-style-type: none"> • El crecimiento de EE.UU. continúa siendo dinámico, impulsado por el consumo privado y público, pero existen dudas acerca de la durabilidad de este rendimiento. El desvanecimiento de estímulos fiscales desde mediados de 2019 y la disminución de los beneficios empresariales - a medida que los márgenes se deterioran con el aumento de los aranceles de importación y el aumento de los costes laborales- debilitarán la economía en el futuro. • La actividad económica en la zona euro está respaldada por el firme consumo interno y la solidez de los mercados de trabajo, pero el crecimiento se desacelerará en 2019 y 2020, en un contexto de debilitamiento de las exportaciones y reducción de la inversión. • La economía del Reino Unido ha perdido un impulso significativo debido a la incertidumbre del Brexit. • El crecimiento económico de Japón aumentó en el primer trimestre de 2019 pero el consumo privado y los gastos de capital actualmente se están contrayendo. • Ante el riesgo de una fuerte desaceleración, China ha adoptado medidas de flexibilización mediante una combinación de medidas fiscales y monetarias. • Las perspectivas de crecimiento son desiguales entre los mercados emergentes. Aunque las condiciones financieras siguen siendo favorables, especialmente tras el retroceso de las expectativas de los tipos de interés al alza en EE.UU., los mercados emergentes se enfrentan a grandes reembolsos de deuda corporativa en 2019-2021 y siguen siendo vulnerables a los cambios en la confianza de los mercados. <p>Desde una perspectiva regulatoria, el primer semestre de 2019 se caracterizó por la adopción del paquete bancario CRR2/CRD5. Este grupo de textos entró en vigor el 27 de junio de 2019. La mayoría de las disposiciones son de aplicación en 2 años, desde junio de 2021, pero algunos de ellas como la TLAC (Capacidad Total de Absorción de Pérdidas) son de</p>

		aplicación a partir de finales de junio de 2019. La Directiva CRD5 será de aplicación una vez se trasponga a la legislación francesa, prevista para finales de 2020 como muy tarde. Sin embargo, la trasposición al derecho europeo del acuerdo por el que se finalizan las reformas de Basilea III todavía no está en el orden del día por lo que se refiere a las instituciones legislativas europeas.

D.6	Advertencia importante para los inversores	<p>Los términos y condiciones de los Warrants podrían incluir estipulaciones en virtud de las cuales ciertas interrupciones de mercado podrían causar retrasos en la liquidación de los Warrants o la introducción de ciertas modificaciones. Además, en el caso de producirse situaciones que afectaran a los instrumentos subyacentes, los términos y condiciones de los Warrants permiten al Emisor sustituir los instrumentos subyacentes por otros instrumentos subyacentes nuevos, suspender la exposición a los activos subyacentes y aplicar un tipo de referencia a los importes así obtenidos hasta la fecha de vencimiento de los Warrants y ofrecer a los Titulares de los Warrants la posibilidad de cancelar anticipadamente sus Warrants al valor de mercado de dichos Warrants, cancelar los Warrants sobre la base del valor de mercado de los mismos, o deducir de cualquier importe adeudado el coste incrementado de cobertura, y en cada caso sin el consentimiento de los Tenedores de los Warrants.</p> <p>Los pagos a realizar (ya sea en la fecha de vencimiento o en cualquier otro momento) en virtud de los Warrants se calculan por referencia a ciertos subyacentes, la rentabilidad de los Warrants se basa en variaciones del valor de los subyacentes, estando sujeta a fluctuaciones. Las personas que se planteen invertir en los Warrants deben saber que estos Warrants pueden ser volátiles y que podrían no obtener ninguna rentabilidad y perder íntegramente o una proporción sustancial de su inversión.</p> <p>La Garantía constituye una obligación contractual general y no garantizada del Garante y de ninguna otra persona. El pago de los Warrants depende también de la capacidad crediticia del Garante.</p>

		<p>Las personas que se planteen invertir en los Warrants con el beneficio de la Garantía deben tener en cuenta que, en caso de impago de un Emisor, los derechos del Tenedor de los Warrants estarán limitados a las sumas que obtenga al reclamar la ejecución de la Garantía de conformidad con las condiciones de la misma y no tendrán derecho a entablar procedimiento judicial o de otro tipo, ni a interponer por otra vía una reclamación contra el Emisor.</p> <p>La Garantía constituye exclusivamente una garantía de pago y no una garantía de rendimiento por parte del correspondiente Emisor o de cualquiera de sus otras obligaciones derivadas de los Warrants que se benefician de la Garantía.</p> <p>Société Générale actúa como emisor con arreglo al Programa, como Garante de los Warrants emitidos por el Emisor y asimismo como proveedor de instrumentos de cobertura para el Emisor. Por consiguiente, los inversores estarán expuestos no sólo al riesgo de crédito del Garante, sino también a los riesgos operativos derivados de la falta de independencia del Garante, al asumir sus obligaciones y deberes como tal Garante y proveedor de los instrumentos de cobertura.</p> <p>Se pretende que los posibles conflictos de intereses y riesgos operativos que se deriven de dicha falta de independencia se vean en parte mitigados por el hecho de que existirán distintas divisiones dentro del Garante que serán responsables de poner en práctica la Garantía y de aportar los instrumentos de cobertura, y porque cada división se gestionará como una unidad operativa distinta, separadas por “murallas chinas” (barreras al intercambio de información) y dirigidas por distintos equipos de dirección.</p> <p>El Emisor y el Garante, así como sus filiales y/o entidades vinculadas podrán, en relación con sus otras actividades empresariales, adquirir o estar en posesión de información sensible acerca de los activos subyacentes. Dichas actividades e información pueden tener consecuencias perjudiciales para los Tenedores de los Warrants.</p> <p>El Emisor y el Garante, así como sus filiales y/o entidades vinculadas podrán asumir funciones diferentes respecto de los Warrants, tales como las de especialista, agente de cálculo o agente. Por consiguiente, puede surgir la posibilidad de un conflicto de intereses.</p> <p>En relación con la oferta de los Warrants, el Emisor y el Garante, así como sus filiales y/o entidades vinculadas pueden celebrar una o más operaciones de cobertura con respecto a los activos de referencia o a los correspondientes derivados, que pueden afectar al precio de mercado, a la liquidez o al valor de los Warrants.</p> <p>Durante la vigencia de los Warrants, su valor de mercado puede ser inferior al capital invertido. Además, la insolvencia del Emisor y/o del Garante puede provocar la pérdida total del capital invertido.</p> <p>La regulación y reforma de los “índices de referencia” (“<i>benchmarks</i>”) puede afectar negativamente el valor de los Warrants vinculados a o referidos a dichos “índices de referencia” (“<i>benchmarks</i>”).</p> <p>Se advierte a los inversores de que podrían sufrir la pérdida total o parcial de su inversión.</p>
